The Department of Library and Information Science, in collaboration with the Internal Quality Assurance Cell (IQAC), organized a Library Orientation Programme on Tuesday, 25 August 2026 at 10.00 a.m. The programme was organized with the objective of introducing students to the college library, its resources, services, facilities, and effective methods of using various print and digital information resources. The programme aimed to create awareness among students about the importance of the library in their academic journey and to encourage them to develop a regular reading habit. It also focused on promoting a healthy reading culture among students and motivating them to make maximum use of the resources and services available in the college library.

Objectives of the Programme

To introduce students to the college library and its various sections.

To familiarize students with the library collection and available information resources.

To explain the various library services and facilities available to students.

To create awareness about the effective use of print and digital resources.

To encourage students to visit the library regularly.

To develop a positive reading habit and promote reading culture among students.

To motivate students to use the library for academic, competitive examination and general knowledge purposes.

Proceedings of the Programme

The programme was conducted in the presence of the Principal, faculty members, non-teaching staff and students of the college. The programme commenced with an introductory address by Dr. D. B. Bhoge, who delivered the introductory remarks and explained the purpose and significance of organizing the Library Orientation Programme.

The Librarian, Prof. Vikas Vilas Barge, conducted the main orientation session. Through a well-prepared PowerPoint Presentation (PPT), he introduced the students to the college library and provided detailed information about its resources, services and facilities. He explained the importance of the library as an essential academic support system and highlighted the different types of resources available for students. The students were introduced to the library collection, reference resources, periodicals and other learning materials. Information regarding library services and the proper utilization of available resources was also explained in a simple and effective manner. Prof. Barge particularly emphasized the importance of developing a regular reading habit. He explained that reading beyond the prescribed syllabus helps students broaden their knowledge, improve their language and communication skills, develop critical thinking and enhance their overall personality. Students were encouraged to make regular use of books, reference materials, periodicals and digital information resources available through the library.

The orientation also highlighted the importance of using the library not merely for examination preparation but as a continuous source of learning and knowledge. Students were encouraged to visit the library regularly and utilize its facilities for academic studies, competitive examinations, general knowledge and personal development.

Presidential Address: Prin. Dr. S. M. Gavade

The programme was presided over by the Principal of the college, Dr. S. M. Gavade. In his presidential address, he emphasized the vital role of reading in the intellectual and personal development of students. He stated that reading develops knowledge, thinking ability, imagination and a broader perspective towards life. He advised students to cultivate the habit of reading regularly and to visit the college library frequently. He encouraged students to make maximum use of the books and other learning resources available in the library. The Principal also emphasized that students should not restrict their learning only to textbooks and examinations. Regular reading of books, reference materials and other informative literature can contribute significantly to their academic success and overall personality development.

Participation and Presence

The programme was attended by all the students, teaching staff and non-teaching staff of the college. Prof. Nilesh Phase and Prof. Anand Margam were present as prominent guests. The active participation of students reflected their

interest in understanding the library facilities and resources available to them. The programme provided students with useful guidance on how they could effectively utilize the library for their academic and personal development.

Vote of Thanks

The programme was conducted smoothly with the cooperation of the teaching and non-teaching staff. Dr. Sandhya Potdar efficiently conducted the proceedings of the programme, while Prof. Madhuri Salunkhe proposed the vote of thanks. She expressed gratitude to the Principal, faculty members, staff, students and everyone who contributed to the successful organization of the programme.

Outcome of the Programme

The Library Orientation Programme was successful in creating awareness among students regarding the importance and effective utilization of the college library. Students gained information about the available library resources, services and facilities. The programme also helped in motivating students to visit the library regularly and develop a habit of reading. It created awareness that the library is not merely a place for issuing and returning books but an important centre for learning, knowledge creation, information access and personality development. The programme therefore contributed positively towards strengthening the reading culture among students and encouraging the effective utilization of library resources and services.

Conclusion:

The Library Orientation Programme was an informative and meaningful initiative organized jointly by the Department of Library and Information Science and IQAC. The programme successfully familiarized students with the library resources, services and facilities and highlighted the importance of regular reading. The guidance provided by the Principal and the detailed presentation by the Librarian helped students understand the role of the library in their academic and personal development. The programme concluded with a positive message that regular reading and effective use of library resources are essential for becoming knowledgeable, informed and lifelong learners. Overall, the programme was successfully conducted and achieved its intended objectives.
